Details

Description

The SI 2.600 CB ironing system, consisting of SC 2.600 CB steam cleaner and AB 1000 active ironing table are the ideal combination for perfect ironing and cleaning results.

Thanks to the removable and permanently fillable 0.8 litre fresh water tank, the SC 2.600 CB delivers nonstop steam for pure cleanliness without chemicals and allows uninterrupted ironing - and this at a heating time of only 6 minutes. This energy-efficient steam cleaner offers 3.2 bar steam pressure and a 1500 W heater for a high steam output. Even thick fabrics only need to be ironed on one side.

This cuts down ironing time by 50%! Thanks to the active steam suction of the ironing table, the steam penetrates fabrics more easily.

The AB 1000 features an inflation function which produces an air cushion on which even the most difficult textiles can be ironed crease-free easily and conveniently. Ironing has never been so easy: cleans windows, shower cubicles, glass, taps, tiles, joints, radiators or ceramic hobs - effectively removes limescale residues, grease and stubborn dirt in bathrooms, kitchens, etc., in an environmentally-friendly manner.

Application

- Professional ironing of all kinds of fabrics
- Refreshes clothing
